INTRODUCTION

This catalog has been compiled as an indication of materials available to special educators in the region served by the Northwest Regional Special Education Instructional Materials Center and its Associate Centers in Alaska, Hawaii, Idaho, Oregon and Washington. Their personnel and addresses are located on the following page.

Collections within these centers will grow beyond this listing; new and additional materials are being acquired by Associate Centers daily. There will possibly be further editions of this catalog.

Descriptions and evaluations are, we hope, succinct enough that use and applicability will be evident to the reader.

Borrowing regulations will be unique with each of the Associate Centers. Contact them for statements of library hours, loan regulations and borrowing periods. The Associate Center nearest you will provide mailing or walk-in services. The Regional Center at Eugene, in moving into its Research and Development phase, will no longer provide mailing service to the region except in answer to special requests from Associate Centers or in answer to requests for professional films not carried in their collections.

Mr. McLuhan suggests that educators rely heavily--perhaps too heavily--on books and journals. We are pleased that SEIMC's are able to offer tactile, visual, motor, and multi-sensory materials as well as the linear visual media to which he has referred.

Note: Special Education Instructional Materials Centers do not sell materials or act as jobbers. To purchase materials, write directly to the manufacturer or publisher. We have attempted to correct and update all addresses as of 1969.

PSYCHOLOGICAL TESTS AND DIAGNOSTIC MATERIALS

Statement of Conditions for Borrowing the Psychoeducational Materials:

The Northwest Regional S.E.I.M.C. bases its qualification standards for use of tests on the following quotes from "Ethical Standards for the Distribution of Psychological Tests and Diagnostic Aids" approved by the American Psychological Association:

Test and diagnostic aids should be released only to persons who can demonstrate that they have the knowledge and skill necessary for their effective use and interpretation.

The Center has classified the testing materials under two main headings for purposes of loaning the materials:

- (1) Materials that are of such a nature that maximum knowledge of testing is necessary for effective use and interpretation. The borrower is required to submit written approval of his local area school psychologist which signifies the borrower meets this qualification. These materials are preceded by an asterisk(*) in the following pages.
- (2) Materials that are of such a nature that only a minimum knowledge of testing is necessary for effective use and interpretation. The borrower may request these materials without the written approval of the local area school psychologist.

Tests and other psychoeducational materials are listed alphabetically by title. They may be requested by title and accession number from Associate Centers.

Materials are described by title and what are considered their primary purposes. Some may be used for more than one purpose. A test is considered diagnostic if the author(s) so state. A test is considered remedial if there are within it suggestions of remedial use.

Grade range applicability is based on the suggested range for normal children. Thus in some cases, these tests may be used with handicapped children at an older age than indicated.

Applicability Codes:	Grades	Chronological Age	Level
	K	0 - 5	Kindergarten & Preschool
	1,2,3	6 - 8	Primary
	4,5,6	9 - 11	Intermediate
	7,8,9	12 - 14	Jr. High
	10,11,12	15 - 17	Senior High
	C	18+	Adult

Dear SEIMC Catalog Reader:

Would you care to "dry run" through the SEIMC Catalog with us? It has some quixotics of its own which we might be able to clarify or at least identify.

As you already know, this will not be a borrowing catalog for you as an individual teacher, except as you use it to browse for materials you are requesting from your nearest Associate Center.

But it is a good way to find out what is available in the various curriculum areas to help you teach handicapped children. And we've tried to include all the purchasing information you'll need to acquire materials through your district or IED or Associate Center.

State of Washington borrowers will need to know that materials cannot be loaned from the University of Washington Center, SEIMEC, but may be borrowed from the other three centers at Bellingham, Ellensburg and Cheney. Pick your nearest Associate Center!

You may want to "key" certain sections of the Catalog so you can turn to them quickly. If you have Index Tabs, here are some inserts:

CURRICULUM GUIDES	TESTS	PUBLISHERS LISTING	PROFESSIONAL FILMS & MEDIA	TITLE INDEX: INSTR. MATERIALS
PROF. BOOKS: ACC. NO. INDEX	INSTR. MATERIALS ACC. NO. INDEX	TABLE OF CONTENTS	ACC. NO INDEXES	

INSTRUCTIONAL MATERIALS SECTION:

Each section is generally arranged in order by regular grade levels of materials.

If an entry in the third column reads "Deaf-Loan," it may be borrowed from the Eugene SEIMC. It is a film from the Captioned Films for the Deaf loan collection for use with hearing impaired. It may also be borrowed from the Oregon School for the Deaf, 999 Locust Street, N.E., Salem, Oregon 97310; from Washington School for the Deaf (also serves Alaska), 611 Grand Blvd., Vancouver, Washington, 98661; Diamond Head School, 3440 Leahi Ave., Honolulu, Hawaii 96815; Idaho School for the Deaf, 14th Avenue and Main, Gooding, Idaho 83330.

Some arbitrary decisions had to be made about where to locate subjects:

If materials cover more than one subject, such as mathematics, science, and language arts, we entered it in all three sections.

Social studies includes history, geography, economics and map reading.

Vocations, counseling and guidance includes also behavior, safety, health education, moral values, and family life education.

Visual and perceptual training includes also sound discrimination, manipulative skills materials and groups of materials produced as Montessori materials and Tactile Aids for the Blind.

Reading readiness and language arts tend to overlap in areas of language development, including such experiences as sound discrimination, visual and auditory discrimination, and concept building.

Phonics and reading readiness also tend to overlap; browse both areas.

Reading includes ABC materials and many of the basal readers series.

Supplementary reading is largely single books or series not designed as basal readers series.

Language arts is rife with games, puzzles, and media designed for language experiences. Handwriting and spelling appear in this section, also.

Audio lingual includes materials on both speech development and speech correction.

P.E., rhythms and music includes also musical instruments and games. Related to this are the Robbins videotapes on rhythmic which were made at Anchorage and which are available from the SEIMC on one-inch videotape. A manual is included.

Teaching aids section includes selected appliances or teaching machines.

OTHER SECTIONS:

The publishers listing on pages 138-147 is for instructional materials only. (You will find another listing on pages 250-252 for tests only.)

The professional listing is in two groupings, only because many of our texts and professional books were not yet classified by call number at the time the catalog was compiled. If you need to locate a specific book, the author index, pages 198-205, indexes both sections; the subject classification (Library of Congress) is an approach for the first section, and the second section is alphabetical by title.

The serials listing and the serials on microfilm, pages 221-222, should be read as one. Many of our earlier journals are available only on microfilm.

Audiovisual materials for teacher preparation programs are useful, when carefully selected and previewed, for parent programs and inservice programs as well. Since the catalog was printed, we have added the following:

- 1) Videotapes on Educational rhythmic for Mentally Handicapped Children by Ferris & Jennet Robins.
- 2) Films, Up and Over. Bradley Wright Films. Physical education with Learning Disabled children. Approx. 25 min.
Partners in Learning. Bradley Wright Films. Teaching strategies with special education: a discussion film. Approx. 45 min.
- 3) See the Fall and Winter SEIMC Newsletters for a description of the Rocky Mountain SEIMC Learning Disabilities videotapes available from the SEIMC.

Curriculum Guides cover quite a range of subjects and are arranged by publishing city or institution.

Psychological Tests and Diagnostic Materials, if asterisked, require special certification for use. See note on page 241.

Indexes by accession number, for instructional materials and professional books, will help you translate from your ASEIMC's holdings to ours; the title index in instructional materials will do the same.

Good luck!

The SEIMC Staff
